

## Capstone class : Brainstorming

### What is our GOAL for this MODULE?

The goal of this module is to revise our learnings in react native and start creating a new app.

### What did we ACHIEVE in the class TODAY?

- We finished our book santa app.
- We started working on our new app.
- We brainstormed the ideas for our new project.

### Which CONCEPTS/CODING BLOCKS did we cover today?

- Brainstorming ideas for a new app.

### How did we DO the activities?

We listed down all the problems that we connected to and then categorized them .  
Then we selected the problem which can be solved by technology.

### What's next?

In the next class, you will identify the right user experience and create wireframe for the app.
