Live Online Coding for Kids

Mockups

What is our GOAL for this MODULE?
The goal of this module is to revise our learning in creating the react native app and design a wireframe for our new app.

What did we ACHIEVE in the class TODAY?
- We brainstormed the ideas for our new project.
- We worked on the user story and wireframe.

Which CONCEPTS/CODING BLOCKS did we cover today?
- Creating a wireframe for the app

How did we DO the activities?

We identify the right user experience for the users of the app.

We designed a wireframe/mockup for the app.

What's NEXT?

In the next class, we will create a User Interface for the app.
